REVIEW / SYNTHÈSE

Yosr Z. Haffani, Nancy F. Silva, and Daphne R. Goring Receptor kinase signalling in plants 1

ARTICLES / ARTICLES

Jin Feng Chen, Fei Yun Zhuang, Xian An Liu, and Chun Tao Qian Reciprocal differences of morphological and DNA characters in interspecific hybridization in *Cucumis* 16

Diana Bizecki Robson, J. Diane Knight, Richard E. Farrell, and James J. Germida Natural revegetation of hydrocarbon-contaminated soil in semi-arid grasslands 22

Carol K. Augspurger Developmental versus environmental control of early leaf phenology in juvenile Ohio buckeye (*Aesculus glabra*) 31

M. Ajmal Khan, Bilquees Gul, and Darrell J. Weber Action of plant growth regulators and salinity on seed germination of *Ceratoides lanata* 37

Gary W. Saunders, Anthony Chiovitti, and Gerald T. Kraft Small-subunit rDNA sequences from representatives of selected families of the Gigartinales and Rhodymeniales (Rhodophyta). 3. Delineating the Gigartinales sensu stricto 43

Rosaria A. Healy, Harry T. Horner, and Charlotte R. Bronson Visual characterization of the extracellular matrix of *Cochliobolus heterostrophus* and a mutant strain with a modified matrix 75

Jarkko Korhonen, Minna-Maarit Kytöviita, and Pirkko Siikamäki Are resources allocated differently to symbiosis and reproduction in *Geranium sylvaticum* under different light conditions? 89

Aleš Kladnik, Barbara Vilhar, Prem S. Chourey, and Marina Dermastia Sucrose synthase isozyme SUS1 in the maize root cap is preferentially localized in the endopolyploid outer cells 96

Shivcharn S. Dhillion and Tone L. Gardsjord Arbuscular mycorrhizas influence plant diversity, productivity, and nutrients in boreal grasslands 104

Lance S. Evans and Rocio K. Perez Diversity of cell lengths in intercalary meristem regions of grasses: location of the proliferative cell population 115

L.L. Valentine, T.L. Fiedler, A.N. Hart, C.A. Petersen, H.K. Berninghausen, and D. Southworth Diversity of ectomycorrhizas associated with *Quercus garryana* in southern Oregon 123

Alicia N. Massa, Kevin B. Jensen, Steve R. Larson, and David J. Hole Morphological variation in *Bromus* sect. *Ceratochloa* germplasm of Patagonia 136

NOTE / NOTE

Christopher J. Ellis, Peter D. Crittenden, and Charles M. Scrimgeour Soil as a potential source of nitrogen for mat-forming lichens 145

February / Février

ARTICLES / ARTICLES

Sabahat Zia and M. Ajmal Khan Effect of light, salinity, and temperature on seed germination of *Limonium stocksii* 151

Ekta Khurana and J.S. Singh Impact of elevated nitrogen inputs on seedling growth of five dry tropical tree species as affected by life-history traits 158

Inderjit, Dhiraj S. Rawat, and Chester L. Foy Multifaceted approach to determine rice straw phytotoxicity 168

Keith R. Skene Key differences in photosynthetic characteristics of nine species of intertidal macroalgae are related to their position on the shore 177

Sara Dart, Paul Kron, and Barbara K. Mable Characterizing polyploidy in *Arabidopsis lyrata* using chromosome counts and flow cytometry 185

© 2004 NRC Canada

Jean M. Gerrath, T. Wilson, and Usher Posluszny Morphological and anatomical development in the Vitaceae. VII. Floral development in *Rhoicissus digitata* with respect to other genera in the family **198**

Pilar Flores, M. Ángeles Botella, Antonio Cerdá, and Vicente Martínez Influence of nitrate level on nitrate assimilation in tomato (*Lycopersicon esculentum*) plants under saline stress **207**

Tetsuhiro Kawagoe and Nobuhiko Suzuki Cryptic dioecy in *Actinidia polygama*: a test of the pollinator attraction hypothesis **214**

Karin Hilfiker, Rolf Holderegger, Peter Rotach, and Felix Gugerli Dynamics of genetic variation in *Taxus baccata*: local versus regional perspectives **219**

Takanobu Yagi Within-tree variations in shoot differentiation patterns of 10 tall tree species in a Japanese cool-temperate forest **228**

Lisa E. Wallace A comparison of genetic variation and structure in the allopolyploid *Platanthera huronensis* and its diploid progenitors, *Platanthera aquilonis* and *Platanthera dilatata* (Orchidaceae) **244**

Kevin D. Floate Extent and patterns of hybridization among the three species of *Populus* that constitute the riparian forest of southern Alberta, Canada **253**

Alexander B. Filonow Adhesion of decay-causing fungal conidia in wounds of *Malus* ×*domestica* 'Golden Delicious' apple fruit is influenced by wound age **265**

Cecilia M. Creus, Rolando J. Sueldo, and Carlos A. Barassi Water relations and yield in *Azospirillum*-inoculated wheat exposed to drought in the field **273**

NOTE / NOTE

Denis Barabé, Christian Lacroix, and Marc Gibernau Aspects of floral morphology in *Ambrosina* and *Arisarum* (Araceae) **282**

Instructions to Authors **I-1**

Recommandations aux auteurs **R-1**
